ROOFING SYSTEMS 2-DAY TRAINING

CONKLIN SINGLE-PLY MEMBRANE SYSTEMS

Single-Ply Membrane Systems Training programs are hosted to bring contractors the general knowledge of Conklin's single-ply membrane products, accessories, and systems. Longtime Preferred Contractors, Conklin Roofing Systems staff team members and equipment vendor partners will provide those attending this training program key information to succeed in the fast-paced single-ply membrane roofing marketplace.

BENEFITS OF THIS TRAINING

- Provides an overview of the commercial roofing industry and the market position of Conklin's commercial roofing single-ply membrane products and systems.
- Discusses key knowledge in substrate identification, moisture and ventilation issues along with commercial roofing inspection best practices.
- Teaches key elements of commercial roofing lead generation, the solution-finding process, commercial roofing single-ply membrane proposal preparation, and tips to best present commercial roofing single-ply membrane systems proposal/quotes to building owners/decision makers.
- Provides strategies to complete commercial roofing single-ply membrane projects efficiently and safely, while leveraging the latest in equipment, product, and job site technology.
- Cover steps to capitalize on completed commercial roofing single-ply membrane projects by developing long-term customer relationships and future roofing business by integrating roofing project maintenance agreements, roof service life reports, commercial roof repairs and service after the sale.

A package of sales and promotional materials will be provided to each first-time attendee upon completion of Conklin Single-Ply Membrane Systems Training.
